

Activity 2: Developing Research Questions

Directions:

- Step 1:** As a group, develop a qualitative research question(s) around the topic provided at your table. Be sure the question is open-ended, includes information on the target population, and is specific or focused.
- Step 2:** Write research question(s) on display size paper and be prepared to present to the larger group.
- Step 3:** Once all groups have finished we will restructure groups and topics and repeat the process.
